PRINTABLE RING SIZING GUIDE

How to Use This Guide

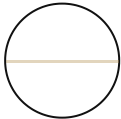

- Print at 100% Scale:** Ensure your printer settings are set to "100%" or "Actual Size". Do not select "Fit to Page" or "Scale to Fit".
- Verify the Scale:** Place a standard credit card in the box below. It should fit perfectly within the gold lines. If not, reprint the page at the correct scale.
- Measure Your Ring:** Find a ring that currently fits the intended finger perfectly.
- Match the Size:** Place your ring over the circles below. Match the **inside edge** of your ring to the black circle. When the black circle is just barely touching the inside of your ring, you have found your correct size.
- Between Sizes?** We recommend choosing the larger size for maximum comfort.
